

## Precision Balances BTC Series, Phoenix Instrument

With its modern design and the UNIBLOC weighing systems, the new BTC series sets new standards.

### Other features of the BTC series:

- Internal calibration weight
- Separate stability indication
- Measuring time 2 seconds
- Large weighing space with draft shield comprised as a standard
- Comfortable operation via keys
- Very easy data transmission via Windows direct function
- Various application programs
- Backlit display
- On request, the balances can be supplied officially calibrated/approved
- 5 years warranty

| Type                   | Increm.<br>g | Weigh. range<br>g | Platform<br>mm | Order No.   |
|------------------------|--------------|-------------------|----------------|-------------|
